Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 4, 7, 9, 11, 20, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Noda et al. (US 5,785,424).

The patent to Noda et al. (US 5,785,424) discloses in Figure 15 a blending tool for use in a vessel (col. 1, lines 59-62) including a rotatable drive shaft 13; a shank 10 attached to the drive shaft 13 at a location of attachment; a collision surface 8 having a profile; a connector mechanism 101 capable of pivotally connecting the collision surface 8 to an end region of the shank 10 at a location spaced apart from the attachment location; wherein the connector mechanism is capable of permitting adjustability of the collision surface 8 along the length of the shank 10 or about the circumference of the shank thereby varying the profile of the collision surface along a plane parallel to the axis of the shaft 13; the connector mechanism having a fastener 102 enabling the collision surface to be rigidly fixed in one of any desired positions during rotation (col. 8, lines 61-67) or inherently removable from the shank; the collision surface 8 comprising plates 81-83 spaced apart from the shank 10; whereby the height of the blending tool is adjustable relative to the plane of rotation (e.g., if the fastener 102 and corresponding connector mechanism 101 were rotated or pivoted 90 degrees from the position seen in Figure 15, the surface 8 would be located higher with respect the plane of rotation

defined by the shank 10); wherein further pivoting of the collision surface with respect to the shank 10 thereby varies the profile thereof along its height dimension.

Allowable Subject Matter

3. Claim 10 is allowed.
4. Claims 5, 6, and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1723

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
